

RAJA BABULAL MOURYA

Cybersecurity — Digital Forensics — VAPT

Vadodara, Gujarat

9834209990 — rajamourya915@gmail.com — LinkedIn — GitHub

PROFESSIONAL SUMMARY

Cybersecurity and Digital Forensics professional with hands-on experience in Vulnerability Assessment and Penetration Testing (VAPT), Digital Forensics, Incident Response, and Web Application Security. Skilled in identifying security vulnerabilities, conducting forensic investigations, and developing AI-driven cybersecurity solutions. National Finalist at India Innovates 2026 and ranked among the Top 1% globally on TryHackMe.

EDUCATION

B.Tech Computer Science Engineering (Cyber Security)	2022 – 2026
Parul University, Vadodara	

Higher Secondary Certificate (Class XII)	2020 – 2021
B.N.N. College, Bhiwandi, Maharashtra	

Secondary School Certificate (Class X)	2018 – 2019
Hindi High School, Bhiwandi, Maharashtra	

EXPERIENCE

Cyber Security Intern — Vadodara Cyber Cell	Jul 2025 – Dec 2025
--	---------------------

- Conducted end-to-end Vulnerability Assessment and Penetration Testing (VAPT) engagements using Burp Suite, Nmap, Metasploit, and OWASP methodologies.
- Identified and validated vulnerabilities including SQL Injection (SQLi), Cross-Site Scripting (XSS), IDOR, and Broken Authentication.
- Performed forensic evidence acquisition, malware analysis, and cyber fraud investigations.
- Prepared professional penetration testing reports with Proof-of-Concept (PoC) evidence and remediation recommendations.

Administrative Executive — Parul University	Jan 2023 – Jun 2024
--	---------------------

- Coordinated with students, faculty members, and external stakeholders, ensuring effective communication and operational efficiency.
- Managed scheduling, planning, and execution of university-level activities, academic events, and departmental operations.
- Resolved administrative and scheduling challenges through effective coordination and problem-solving.
- Using Microsoft Excel and tracking systems to maintain records, monitor deadlines, and generate operational reports.

PROJECT

KAVACH AI — India Innovates 2026 National Finalist

- Developed an AI-powered cybersecurity platform to detect fake videos, AI voice clones, and multilingual phishing attacks.
- Built detection models using PyTorch, ResNet-50, IndicBERT, FastAPI, React, MongoDB Atlas, Docker, and Redis.
- Led system architecture, AI/ML integration, backend security workflows, and deployment as Team Leader and System Architect.

ACHIEVEMENTS

- Ranked among the Top 1% worldwide on TryHackMe.
- Secured 3rd Position in HASBL CTF.
- Secured 4th position at the VNR Hackathon.
- The National Finalist at India Innovates 2026 as Team Leader and System Architect of KAVACH AI.

TECHNICAL SKILLS

Security Testing: VAPT, Web Application Security, OWASP Top 10, OSINT

Security Tools: Burp Suite, Nmap, Metasploit, Gobuster, Nikto, Hydra, Wireshark

Digital Forensics & DFIR: Autopsy, FTK Imager, Volatility, Magnet AXIOM

Programming & Technologies: Python, FastAPI, HTML/CSS, Docker, MongoDB, Redis

Operating Systems: Kali Linux, Windows Server

CERTIFICATIONS

- Certified Ethical Hacker (CEH)
- Digital Forensics Essentials (DFE) – EC-Council
- Linux Certified Investigator – CSI Linux
- Digital Forensics – Charles Sturt University, Melbourne, Australia
